

## **Team 1**

- There is no difference between login and not login users
- They are concerned about people could access to all the information This is a closed community

## **Team 2**

- Map issue, Alaska should not be highlighted on the map
- Friend request feature not required
- Customer feels lost and confused with the website.
- The purpose of the site is not very clear Over done than required function

## **Team 3**

- Features depending on the plugin

## **Team 4**

- Good use of icons what is a group manager designation.
- They don't understand very well the homepage
- The bubble chart is static

## **Team 5**

- The homepage is not very clear
- The groups (What does interest groups do, they don't want groups)
- Notifications are a little bit to handle
- Promote more the logo and site identification
- Activity as the first menu option

## **Team 6 - SnapPapers (Us)**

- Impressed, looks really good
- Word cloud is consistent word sizes are always the same size
- Researchers highlighted being populated randomly was a good idea
- Question the red color as text color, use a less aggressive red.
- How often will the website be scraped for papers? It can be decided by the client as the team can implement any frequency the client requires.
- This site is great
- Adding randomly populating fields is good.

- The website doesn't stress the users
- They like the idea of the forum
- They liked everything
